

Dear Sirs: As a regular patron of this incredible facility, I would like to add my voice to that of many others with respect to the decision not to renew the lease for this restaurant.

First, your voters, should not be deprived of access to this magnificent public space. For so many, it is a space of peace and tranquility in this hectic and trying time, a place to relax, to recharge your batteries. Please do not take it away from us.

Second, with the pandemic resulting in so many people now working from home, much corporate space is going to become available in the near future, at very attractive rates. Here is an unparalleled opportunity for the Government to very visibly build the local economy by renting some of that space instead of using the space currently occupied by the Law Courts Inn. Such a move would contribute to the Vancouver economy by supporting the value of our real estate in a time of troubles. The government would reap much PR value from this move!

Thank you.

Yours sincerely,

Carol A. Edwards
