

Dear Sirs,

I understand your office has taken the decision to close the Law Courts Inn. This is a startling and sad decision, taken without any good reason that I am aware of, and without any consultation with the legal community. The Law Courts Inn have served a very important function in BC's legal community for many years. It affords members of the profession, judges, lawyers, and others, to meet at an inspiring and convenient location. I have attended the Inns of Court with former Chief Justice McEachern, other members of the bench, and colleagues of my own experience. I have attended numerous CLE meetings, and met any number of colleagues to break bread. It is a unique and precious part our legal history, and a tradition that should not be destroyed. Please reconsider.

Yours truly,

Jobst Bode
